

Advanced & Innovation Workshops

➤ These workshops significantly strengthen your CV and open doors in major companies, as they follow the newest trends in the industry. For professionals seeking to advance and stay competitive.

- AI + BIM
- Digital Twins (6D)
- Dynamo automation
- 7D sustainability (LEED & ESTIDAMA)

| Workshop Code | Workshop Topic | Workshop Duration | Workshop Description |
|---------------|--|-------------------|---|
| BRA-P01_C10 | AI + BIM: Smarter Design & Delivery | 12 Hours | How AI automates modeling, accelerates design, and enhances project decision-making. |
| BRA-P01_C20 | Generative Design with Dynamo: Automate Creativity | 12 Hours | Use Dynamo to explore options, optimize performance, and create intelligent, data-driven designs. |
| BRA-P01_C30 | 6D Digital Twins: BIM Across the Lifecycle | 12 Hours | Learn how digital twins use real-time data, sensors, and FM integration to improve asset performance. |
| BRA-P01_C40 | 7D BIM: Sustainability with LEED & ESTIDAMA | 12 Hours | Blend BIM workflows with sustainability frameworks to support LEED and ESTIDAMA decisions. |
| BRA-P01_C50 | Automation with Dynamo: Smarter BIM Workflows | 12 Hours | Automate tasks, eliminate errors, and elevate BIM workflows using Dynamo. |
| BRA-P01_C60 | BIM for FM: Post-Construction Handover Made Easy | 12 Hours | Workshop for owners, FM teams, and contractors on delivering and using BIM-powered FM data. |
