INTRODUCTION

BIM Road. Has the combined experience of over 25 years of involvement and collaboration in the field of building technology and related services. We are supported by the talent and knowledge of over 20 highly skilled technical professionals of architects, Engineers, project Managers and programmers in our production Units in Dubai

As an Architecture and Engineering Services Based in Dubai, UAE Offering verifiable superior services and project support, all the while continuing to be developed the unrealized potential of BIM (Building Information Modeling).

BIM Road. Strength is based on the harmony that has been obtained between all Architecture and Engineering teams to produce every single project as integrated unit that functions to achieve project goals in all meanings during Design, Tendering and construction phases.

Our Team has experience to work in harmony with all BIM tools for Architecture, Structure, HVAC, Safety & Fire Fighting, Electrical, and Plumbing. Targeting the highest level of project coordination.

BIM Road. Services are stable for all Types of projects and its Stages. We offer comprehensive solutions which direct to all major design and construction trades. Along with tools for coordination, Clash detection, Model analysis and Virtual Reality integration. We provide all BIM Solutions for Design, Construction, Management and operation Teams.

BIM Road. Leading the Targeting and leading a significant Shift in BIM implementation and deployment in the region, by regular awareness and workshops to establish a strong support for Clients, Consultants, contractors and all other BIM stakeholders.

VISION

BIM Road. is an engineering business service provider with a difference to add value to all kind of projects, by providing on accurate, reliable and coordination solutions through taking all project participates namely Clients, Consultants, Contractors and Operators on a real journey inside the projected space via a realistic 3D perspective.

The process will real aspire to a dramatic turnaround in the way of understanding Architecture and construction. In addition to professional knowledge we provide hands on help and assistance including modeling, IT and marketing solutions.

BIM Road. can assist your business for tomorrow, get in touch with our expert team for more information and to move your business forwards.

BIM Road. has the combined experience of over 25 years of involvement and collaboration in the field of building technology and related services.

MISSION

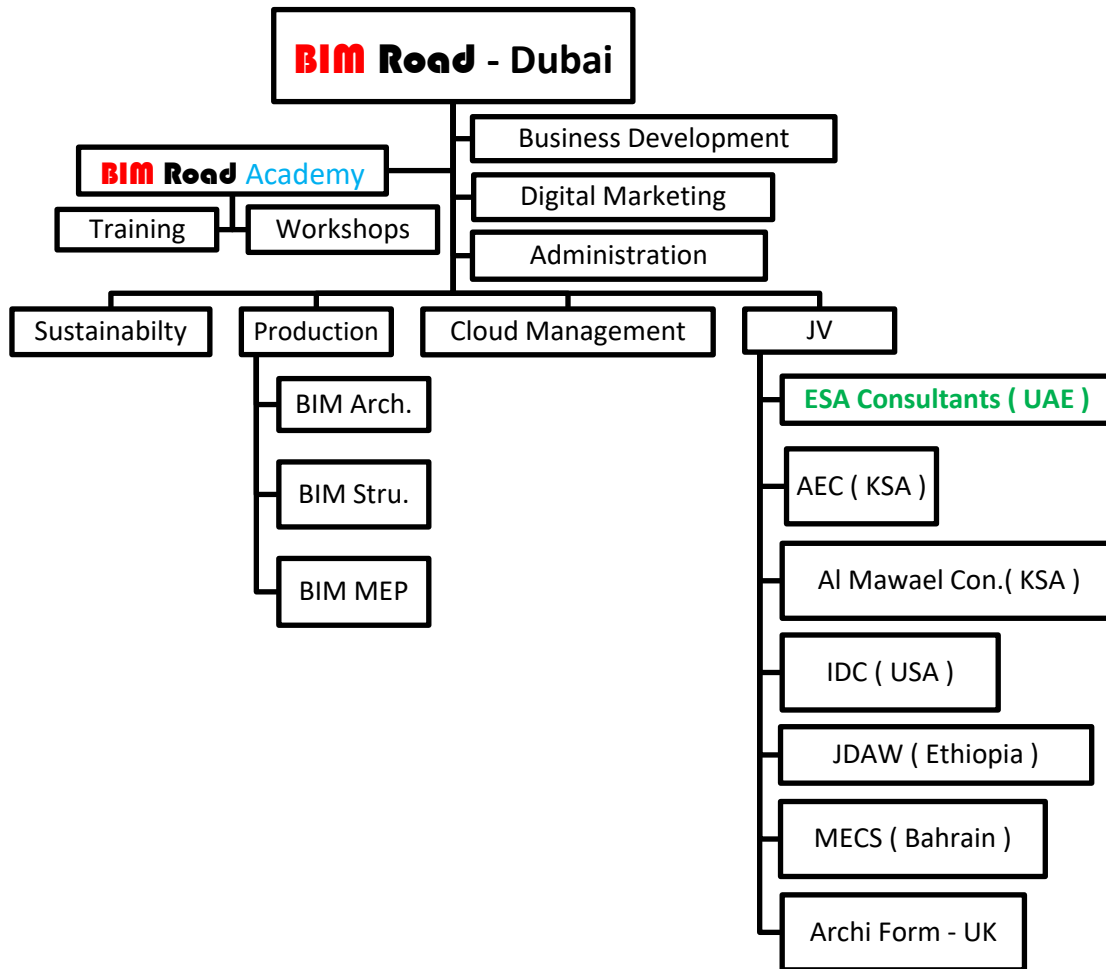

BIM Road. mission is to implement a sustainable, accurate and futuristic digital solution in the present, to not only convert the idea into reality but also to allow participants to see the touch this reality, essentially allowing project stakeholders to live it.

BIM Road. goal is to be part of the project's path at any stage in order to provide services that reduce the cost, raise the quality and show the real vision of the design with the experiences we have.

We plan to innovate future solutions for present hindrances, tomorrow's solutions for today's problems & out of the box methodologies

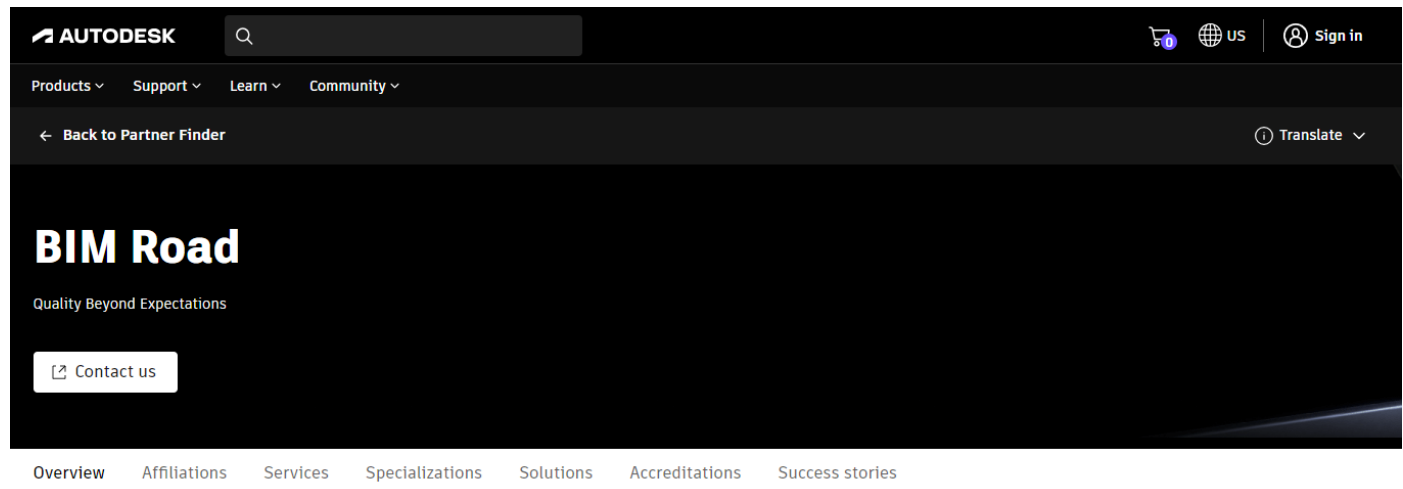

ORGANIZATION CHART

AUTODESK SERVICE PROVIDER PARTNERS

BIM Road. Certified as AD Service Providers Partners, focusing on Cloud base support BIM360 & ACC Autodesk Construction Cloud, targeting the following:

- Project Team collaboration in un-limited locations.
- Streamlines BIM project workflows.
- Save time, reduce risk, and mitigate errors in construction projects.
- Helps improve quality, safety, and commissioning for construction.
- Supports lean construction practices.
- Automated Clash Detection.
- Available across IOS and Android mobile devices.

SERVICES.

BIM Road. Team in Dubai and Egypt, Provide and implement strategic solutions for building design professionals, Contractors, Operators and Owners. Seeking to supplant project delivery methods through as innovative technologically driven process.

Managing and implementing the technologies and business practices that enable more effective Coordination, Communication, Collaboration, Presentation and 3D printing.

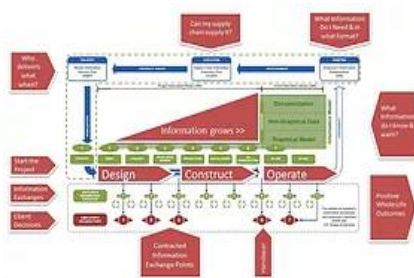

PROJECT MANAGEMENT & QUALITY MANAGEMENT

BIM Road. Team in Dubai, Provide and implement Project Control and Coordination Management solutions for Consultants, Contractors, Operators, and Owners. Seeking to supplant project delivery methods through an innovative Management process.

- Attending progress meetings. In 3D environmental information
- Tracking the site progress in 3D presentation and VR
- Monitoring the planned work versus the actually executed work.
- Reporting to the First Party as required.
- Reviewing the payment certificates of the Project Engineer Based on BIM 5D
- Coordinating between the First Party and the other parties. Based on Model Information and 4D

PROJECTS BIM CONSULTATIONS

Design and Construction management via Autodesk Construction Cloud for field execution and project management that empowers you to seamlessly collaborate, and deliver construction projects with saving time and on budget.

Help customers navigate the impact of BIM & Cloud transformation on their organizations and enable world-class business outcomes.

Supporting developers, clients, consultants

PROJECTS BIM CONSULTATIONS

Supporting developers, clients, consultants, contractors and authorities as a BIM Consultants. Information Management. Design development process via BIM methodology. Implementing BIM strategies and plans for all project stake holders. Guiding and consulting on the BIM project process from a BIM Management point of view.

FULL DISCIPLINE FEDERATED MODEL

BIM Road. not only Implementing BIM Level 2 in all our projects, but also we leading the market how to handle the huge size models to achieve the real BIM benefits.

all Models based on Bs Standards 1192-2 and 1192-3, also strong File and Information management methodology, Repayable CDE Common

Data Environment whatever single or multi location.

All Discipline Model (Architectural - Structural - Mechanical - Electrical - Plumbing - Fire Fighting and Interior)

PROJECT DESIGN DEVELOPMENT / BIM BASED

Using a BIM model platform, **BIM Road** develops and convert the project from the Concept Design stage to fully coordinated Tender stage including all drawings, Documentation and a model for all discipline. Our clients to be provided by full set of Drawings, Details, BOQ, Specifications and a LOD 300 or 400 Model injected with all materials and connected to the specifications.

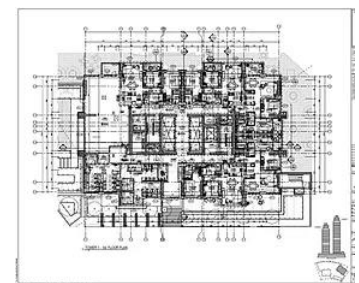

COORDINATED SHOP DRAWINGS

BIM Road Extracting the Project Shop drawings form the coordinated information in the Federated model, this methodology achieves high level of drawings quality, Repayable Design Change management, Low design Risk and high level of drawings quality

3D MODEL ANALYSES

BIM Road has the skills to analyses and evaluate the project design, refer to design Codes and Authority Regulations, Our Team has advanced experience to do a design Code study and evaluation for projects in KSA, Dubai and most of GCC

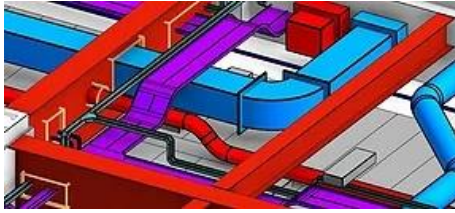

CONSTRUCTION SIMULATION 4D

Construction Simulation or 4D Building Information Modelling (4D BIM) is a process to the intelligent linking of a 3D digital Revit model with time schedule-related information.

BIM Road. Provides precise and useful construction project information for all Project stakeholders. It's gaining momentum in the Construction industry by providing both tangible and intangible benefits for it

4D BIM modeling visualization incorporates start and finish date data for the supply and installation of construction components and reveals the importance of them in relation to the overall project. It has removed the challenge associated with traditional scheduling of construction sequences of misunderstanding brought by the lack of visualization.

BIM Road. Has great expertise in 4D from software and construction sequence view.

The benefits of 4D BIM

- Risk mitigation due to improved team coordination and communication
- Construction Conflict detection
- Improved delivery time and cost savings
- Improved quality

CLASH MANAGEMENT

BIM Road Implement the Clash management for all our projects, targeting Zero Clash between all the project elements, this leads the project construction to less cost and time waste, it reduces also the construction risks

Clash-free was one of the impossible targets before,

Now based on **BIM Road** methodology, we achieve it in all our projects

VIRTUAL REALITY

BIM Road implementing Virtual Reality as our common presentation for the following:

- External Walk Through and feel the external Spaces
- Internal Spaces and Interior Design
- Hotel Room Mock-up Rooms
- Sun Study and Building Masses Relations
- View study for all building windows
- Mechanical Rooms and Data Centers

PROJECTS

BIM Road Team Shared only on Cloud Implementation & Management, BIM Management, Project Management, Design Development, Modeling and BIM Services, Shop Drawings and has no responsibility or copywriter for the projects Concept design.

BIM Road Academy: Empowering Professionals Through Education

As the educational arm of BIM Road, the BIM Road Academy offers programs and workshops designed to provide applied and practical knowledge for professionals in the architecture, engineering, and construction sectors.

Additionally, our programs are tailored to educate key stakeholders, including owners, developers, consultants, and facility managers. The goal is to maximize savings in time and costs across all project phase design, construction, operation, and maintenance.

What is BIM? (Business-Oriented Introduction)

BIM for Project Owners & Developers

The ROI of BIM in Construction Projects

BIM Awareness for University Students

Understanding UAE BIM Mandates Initial

4D BIM: Linking Time to Your Project

5D BIM: Quantity Takeoff and Cost Control

Dear Sir/Madam,

This is to certify that BIM Road have provided Building Information Modelling (BIM) Service for Innovation HUB – R & D Office Building – Masdar City for MEP Design Development Stage.

HUB – R & D Office Building is an office Building G+1, Located in Masdar City Abu Dhabi – UAE

The BIM Scope included

- Design Model Validation
- Design Development MEP Model
- Coordination and clash management
- DD LOD 300 BIM Model and coordination
- Coordination Meetings

This Service Rendered by BIM Road were provided by high quality and professionalism,

APG architecture & planning group. would highly recommend BIM Road Services for similar projects.

Best Regards,
Architecture & Planning Group
